

```
1  <?php
2      namespace Barcoder;
3      class Barcode {
4          public function run () {
5              return "<h4>Stttt Barcode created ".__FILE__."</h4>";
6          }
7      }
8  ?>
```
